

OIL CLAIMS NEAR HERE ARE BEING FILED ON

WOOD-WAINWRIGHT
COMPANY AVERAGE
SHOWED BIG YIELD

Average Wheat Yield per Acre
Last Season was 41
Bushels.

MARQUIS WENT ABOUT 60 BUS.

Direct Information from England
Says Company is Mak-
ing Big Plans

During the harvest season when the STAR was making an estimate of the year's crop and the yield per acre, many were of the opinion that statements that were made in some cases far-fetched and unreasonable, but new information just to hand bears out what was said of the bountiful crop in this vicinity, and all doubting "Thomas" should scan the following with new interest. The information comes from John W. Wood, who is now in Lowell, Gateshead-on-Tyne, Eng. In this report is given the yield per acre of wheat he obtained from the land seeded by the Wood-Wainwright Estate Co. His letter to the STAR is published in part only.

"I have now got the final returns of wheat shipped by us, and taking the figures from the actual shipping bills, we find that we have an average of over 41 bushels to the acre. The Marquis wheat comes out nearer to 60 bushels to the acre, almost incredible. This of course we are retaining for seed, which will be cleaned, tested and sold at a price which will induce farmers to seed Marquis only. We got No. 1 Northern for all wheat and barley, best malting grade. The oats we feel sure will turn out a bumper crop."

Mr. Wood further goes on to state that the directors of the company have decided on a policy, which, although not announced, will, he claims, be good news for Wainwright. The foundation of their future plans, according to Mr. Wood, will be built on actual results which this year have convinced the shareholders of the Wood-Wainwright Estate Co. that the Wainwright district is capable of showing all that was claimed for it.

ONLY FIT FOR WILD ANIMALS, HE SAYS

Mr. and Mrs. F. Kirkpatrick returned here last week from McBride, B. C., where they have been for the past few months. Mr. Kirkpatrick is glad to get back, and on being asked by the STAR what kind of a country he was living in up west, he replied that it was only fit for "wild animals." Harry Saunders and several others, he claims, are awaiting their chance to get out and return here at an early date.

WEATHER REMAINS AS IN MID-SUMMER

Weather conditions continue to cause much satisfaction to the farmers and all concerned. During the past few weeks, August weather has been experienced, and on Sunday the weather was so beautiful that many basked themselves in the sun while the mercury in the thermometer stood at 80 degrees. Many farmers of the district are still plowing and will continue to prepare the soil for next year's crop as long as the weather holds out.

MATTER OF MUCH REGRET

It is a matter of no small regret that the G. T. P. night trains will be discontinued after December 20th, and that the public will no longer be permitted to enjoy what proved and went to make the best service on any railroad in western Canada. In this light, the service of the G. T. P. has been long considered by the traveling public.

VOLUME VI

WAINWRIGHT, ALBERTA, WEDNESDAY, DECEMBER 17, 1913

NUMBER 11

Last Council Meeting Had Several Features, Bearing No Resemblance to Others

Mayor Lally Authorized to Secure Apology from and Deal with Policeman Kenny in Manner He Sees Fit for His Alleged Arrogance in Terming Council "Bunch of Cheap Skates". Mayor and Council Snyder Tilt at One Another Until Former Demands More Respectable Language—Many Things Happened at Last Night's Session.

COUNCIL SNYDER SAID MAYOR HAD MADE FOOL OF COMMITTEE BY REFUSING TO SIGN CHEQUE

Chairman Fire, Water and Light Committee Claims Permission was Given to Buy Pool Table for Fire Hall and so He Recommended Accordingly. Motion Defeated when Councils Snyder and Mills Voted Yes, Councils. Beaudry and Bowerman Voting Nay, Mayor Casting Deciding Ballot.

In order to clear the way and allow the 1914 council to start off with a clean sheet, last night's meeting of the town fathers was a long one and many matters, especially those relating to money matters in dispute, were finally cleared up. There were features, however, marking the last meeting, which are seldom witnessed in council sessions. Mayor Lally and Councils Snyder, Lally and Councils Snyder locked horns in a manner that would indicate almost anything but unanimity on matters of some importance. The first evidence of any difference of opinion came when Councils Snyder introduced a report from the Fire-Water and Light Committee, followed by a motion accepting the former, relative to the purchase of a pool table for the fire hall at \$150, and fixtures up to \$75.

Councils Snyder in his report recommended that the Mayor and Secretary be authorized to issue a cheque for a pool table, the purchase of which was authorized at a previous meeting. In the discussion which followed, Councils Bowerman thought it was not a necessity. Councils Beaudry also spoke against the motion. Mayor Lally thought report should not be accepted on account of former motion not specifying any amount. As an ex-officio member of all committees, he had not been consulted. Councils Snyder stated that his committee had been given permission to go ahead and make the purchase, but the Mayor had made a fool of the committee by refusing to sign a cheque in payment of same. The motion was put, Councils Mills and Snyder voting for it, and Councils Bowerman and Beaudry against it. This resulted in a tie and the Mayor's vote killed the motion. Councils Snyder then indulged in remarks to the effect that he would know what to do in future. He felt hurt that although he had given council matters his time and attention and matters had gone the way they had. He would feel like doing in future what

others had done and stay away from council. He carried his remarks further and Mayor Lally informed him that the meeting was not open for any more comment of this nature, and called for other reports.

POLICEMAN BRANDS COUNCIL. Report was made from the Police Comm. that Policeman Kenny had been interviewed in respect to a claim of \$150 for arresting a man sometime ago. After some discussion in which Councils Snyder pointed out that Policeman Kenny had termed the council, "a bunch of cheap skates", for refusing to pay such a paltry amount, a motion gave Mayor Lally full authority to demand an apology from this officer and otherwise deal with him in a manner he saw fit.

After report was made from the Public Works Comm., stating that the crossing at the east switch was in satisfactory condition, Councils Beaudry submitted his report from the Finance Comm. Several accounts included in which were those from Musson & Ross and the Wainwright Lumber Co., could not be vouched for by any of the councillors. In order to clean these up, a motion was introduced that they be passed. Councils Snyder in speaking to the motion thought this should not be done until Secretary had investigated these old claims, and the motion was changed to read accordingly.

Councils Bowerman asked about a grant of \$500 to Agricultural Society that had been made last summer and wanted to see it paid. He introduced a motion referring to the finance committee for settlement. The motion passed.

WILL SEEK GAS RIGHTS

Councils Mills thought something should be done by the town to have gas rights on certain quarter section reserved for town and it was the unanimous opinion of the council that the town file on certain quarter sections, favourably referred to in Engineer Clapp's report.

MAYOR LALLY RESIGNS

Will Resign Rather than Sanction an Expenditure He Believes Unnecessary at this Time when Town Needs Money for Other Purposes.

After the meeting of the council last night, Mayor Lally handed in his resignation to Secretary Kenny, thus completing the chapter of surprises witnessed at the last meeting of the year. On being approached this morning by the STAR, Mayor Lally stated that this was the only course possible, for he absolutely refused to sanction the expenditure or sign a cheque for a pool table, the purchase of which he considered unnecessary. "Rather than spend the people's money in this way, I will resign," said he.

Deputy Mayor Beaudry will represent the office until the outcome of later developments is known. In the meantime, it is thought that strong pressure will be brought to bear on Mayor Lally to retain office. In view of the successful year he has completed. From general street talk, it is certain that Mayor Lally is backed up by a large number of ratepayers on the action he has taken in voting against what is claimed as an unnecessary expense. In fact, one party is of the belief that even if Mayor Lally had

LOCAL FLOUR IS PROVED BEST OF SEVERAL BRANDS

Samples Sent to Minneapolis and Cream of West Proved Best Grade.

GILT EDGE AS GOOD AS OTHERS.

Patrons of Local Flour Mill Loud in their Praise of Fair Treatment.

Manager Mohr of the Wainwright Milling Co., recently sent several samples of flour to Minneapolis, where they were tested by experts and the result was that Cream of the West, manufactured here, graded higher than any of the others. The three other samples forwarded to that city were brands being sold locally, and those interested in home industry will be glad to learn that Cream of the West is second to none as to quality. Gilt Edge brand, the second grade manufactured here, was equal to the best and superior to two.

Other news from the local flour mill is that the problem of water shortage has been solved and no longer will the machinery be compelled to lie idle until sufficient water fills the well. The old well has been deepened to a depth of 70 feet, and Manager Mohr states that he expects a splendid flow of water. In spite of efforts to pump it dry, the well gives forth an exhaustless supply. That the Wainwright mill is giving every satisfaction to those who come from a distance with their grist is shown by the following letter, which is only one of the many letters Mr. Mohr receives from time to time. The letter is from Royth P. O., near Hardisty, and in part reads as follows:—"I brought a grist to your mill about a year ago and was pleased with the flour, and also the square deal I received was something unusual it seems."

Rex Webber at the N. W. 1/4 of Section 10-46-7, W. 4th, has good accommodation for 12 head of horses, hay and grain, easy terms.

PILES HAVE BEEN DRIVEN

The heavy timber at the risk fire tank have been driven down to the ground level by Contractor P. D. Laird. The appliance Mr. Laird used on this work was of rough construction, but did the work to the entire satisfaction of the council.

A board of trade meeting will be held tomorrow night in the office of the Wainwright Realty Co. Business of importance relative to a farmers elevator being established here will be discussed by the officers and executive members. This will likely be the last meeting of the year, before the election of officers.

Conservatives of the Wainwright district will assemble here tomorrow evening, when a meeting will be held in Washburn's Hall. The annual election of officers will take place and other important business will be transacted. All local and out-of-town conservatives are requested to attend.

Consented to sign a cheque purchasing this pool table, the Merchants Bank would have refused to honor the cheque, in view of the town's present financial condition.

EXPERTS LOCATE OIL IN GRATIN COULEE

Investigation of Calgary Expert Results in Claims Being Filed on Quarter Sections West of Town a Few Miles By Several of Those Interested in Calgary-Okotoks.

The Gratin Coulee, a few miles south-west of town, is the latest spot where oil fields are supposed to exist and, as a result of a recent inspection and investigation by Calgary experts, many claims have been filed upon in that locality. Among those who have filed are some who are interested in the Calgary and Okotoks oil fields, and it is claimed by the experts who visited here that the fields near Wainwright bid fair to outvie those in the vicinity of the former localities.

Last week, J. H. Sinclair, a mining engineer of Calgary, who was instrumental in locating the famous Dingman well, just outside that city, spent several days investigating the subterranean wealth in ravines along the Battle River, and for a time it was thought that he was making observations as to the probability of locating oil in mining quantities. On Thursday, however, it was learned that he was here with an altogether different object in view and that it was in quest of petroleum that he came. Great secrecy on the part of this prominent oil expert prevented information getting out, and only during the last few hours that he was in town was it known that he was interested

in oil. Upwards of fifty oil claims have been filed to date, according to reports emanating from Edmonton. Among those interested are a dozen or more men, interested in Calgary and Okotoks fields, who have received their information from Engineer Sinclair. The most noticeable signs of oil, it is said, have been located in the vicinity of Arthur Betty's farm, close to the Gratin Coulee. This is in range 8, township 44 and 45.

LITTLE EXCITEMENT HERE. No great stir has been created locally, chiefly because information was so difficult to obtain. Recent developments, however, have been added with the announcement that those interested in Calgary and Okotoks oil claims have filed, and it is believed that what they are working and depending on is the result of very favourable reports from Mr. Sinclair. Farmers residing in the vicinity of the spot where observations were made by this expert are loud in their claim that evidence of oil has been shown on repeated occasions and that in certain spots the land is of little agricultural value, giving rise to their belief that the ground is underlaid with deposits of oil.

CARD PARTY AND ENTERTAINMENT GREATLY ENJOYED

Affair was Largely Attended and Short Program was of High Order.

The progressive card party and entertainment, held under the auspices of the Catholic Church on Monday evening in the Elite, proved a very enjoyable affair and was attended by upwards of two hundred and fifty people. Old and young enjoyed euchre and whist and an excellent entertainment. The program was rather elaborate and also included several reels of motion pictures.

In spite of the customary difficulty in getting progressive card parties of this kind started with such a large number of tables, arrangements, under the management of J. T. Bissell and others, were well made. The entertainment program included songs by Miss Bessie Parsons, R. B. Bryden and R. J. McDonald, who proved a pleasing humorist and stage comedian.

GRAND BALL NEW YEAR'S EVE

A Grand ball will be given by the Sons of England on New Year's Eve, Lynch's orchestra, of Edmonton, having already been engaged for the occasion. The function will be held in the Elite theatre and preparations have already been started towards making it a successful event.

ENTERTAINMENT AT GILT EDGE

The church of England held a very successful entertainment in Gilt Edge school on Friday evening. The school house was packed and those who enjoyed the programs readily stated that Gilt Edge had reason to be proud of the talent that was shown by those who took part in the evening's entertainment.

Among those present was G. L. Hudson, M. P. P., and being called on for a few remarks, congratulated the district on the splendid success of the entertainment.

Gilt Edge Ladies will Assist Hospital Union

The ladies of the Gilt Edge district are desirous of co-operating with local ladies in their effort to secure a hospital for Wainwright. Mrs. George Plaxton is one of the prime movers and has suggested that a box social be held. It is probable that one will be held in the near future, when it is expected that the fund of the Hospital Union will be swelled by a tidy sum.

Box Social at Arm Lake

A box social, entertainment and dance were held in Arm Lake school on Thursday evening last and a crowded house greeted those who took part. Those who attended were not disappointed, for a meritorious programme was rendered. Among those from outside points who helped make the entertainment a success were Miss Hedlin and Miss Korthoff. Mr. Peterson acted as auctioneer in a very efficient manner. The chair was filled by G. L. Hudson, M. P. P.

H. C. King III at Edmonton

H. C. King was taken to Edmonton on Friday last and is now in the Royal Alexandra Hospital with a mild attack of pneumonia. He is not critically ill, according to Mr. S. E. James, who accompanied him there. While in Edmonton, Mr. James visited Stewart Plaxton and Miss Lillie Craig, who are in the same hospital with appendicitis. Both are rapidly recovering.

Sold Team Horses for \$1000

A fine team of mares were sold to F. J. Hibernall last week by Geo. A. Smith, the price for the pair being \$1,000. One was a Percheron and the other a grade mare. Mr. Smith also disposed of five sucking colts to the same farmer for \$100 each. These prices are perhaps the best ever received in this vicinity.

BORN:—To Mr. and Mrs. E. T. McDowell, Irma, on Dec. 9th, 1913 at 44 Stuart St., Edmonton a daughter.

STOLE 15 HORSES; SOLD ONE FOR \$9 THIEVES AT LARGE

Horse Thieves who Stole Animals Near Stettler Are Given Chase.

ARE TRAVELING NORTHWARD.

Six Mounted Policemen Scoured South Country without Success.

Two weeks ago, fifteen head of horses were stolen from a farmer residing at Rumsey, a country town near Stettler, and the thieves started to make their getaway towards the north. Last week, Constable Wilson of this town, and five other mounted policemen, together with three special constables, scoured the country from the Saskatchewan boundary to Edgerton but failed to locate the guilty parties.

A clue, and practically the only clue, was given when two of the horses were sold at such ridiculously low prices as \$9 and \$11 each. The direction it was thought they had taken was followed but in spite of the fact that the constables were traveling in plain clothes the thieves could not be found. All the horses have been recovered, except those being ridden by the two men and one they are leading. It is known that they have not yet crossed the G. T. P. and the case is still being followed up by the mounted policemen.

POPULAR COUPLE TO WED TONIGHT

When Miss Aldora Brunker will Become Wife of Oris J. Elder.

At 7.30 this evening, two of Wainwright's most popular young people will be married at the home of Mrs. Thos. S. Brunker, Fourth Ave., when her daughter, Aldora M., will become the wife of Oris J. Elder. The charming young lady will be given in marriage by her brother, William T., and she will be unattended. The ceremony will be performed by Rev. A. Russell, of St. Andrews' Presbyterian Church, in the presence of a few friends and immediate relatives of the contracting couple. Among the out-of-town guests will be Mr. and Mrs. W. M. Burch, of Regina, William Elder, brother of the groom of Saskatoon, and Mrs. R. B. Price, of Camrose.

After the ceremony, a wedding buffet lunch will be served and the happy couple will leave on the 10 o'clock train for Montreal, where they will visit the groom's people before returning to points in Ontario to spend a few weeks with the bride's relatives. On their return here in about six weeks, they will reside in the Field-house house on Third Ave., which Mr. Elder has purchased. The bride's wedding dress will be white silk with chiffon over dress and tunic. She will carry a bouquet of white roses and lilies-of-the-valley. Her traveling dress will be a suit of Taupe grey, with blouse, veiled in shadow lace with touches of purple, with hat to match. The groom's present to the bride will be a set of rat furs.

I.O.O.F. Lodge at Edgerton

Local Odd Fellows, to the number of about thirty, instituted a lodge at Edgerton on Wednesday evening last when upwards of thirty members were initiated. Ceremonies were in charge of Noble Grand J. L. Gerow. Grand Warden Cummings, of Edmonton, representing the Alberta Grand Lodge, was present, together with other past grand officers of the order. "Dick" Hinton is the presiding Noble Grand of the new lodge, and H.C. Heaker is Vice Grand.

THE WAINWRIGHT STAR

MAIN STREET, WAINWRIGHT, ALBERTA

Advts. such as "Strayed," "For Sale," "Wanted," etc., three insertions for \$1.00. Cash with order.

News stands where the STAR is sold—Red Cross Pharmacy, and The Wainwright Pharmacy.

Editor and Publisher

WAINWRIGHT ALTA., WEDNESDAY, DECEMBER 17th, 1913

THE BOARD OF TRADE is a prime mover in an attempt to secure a new elevator here, to be operated by the Farmers' Co-operative Elevator Co. A meeting will be called on December 31st, to ascertain whether or not this is to be desired by the farmers of this locality, who will be asked to subscribe part of the capital necessary to construct it. These shares, it is said, will be sold at \$60 each, payable in five equal instalments of \$12 annually.

Whether or not this new scheme is for the best, the STAR is not in a position to say, except that co-operative companies have not met with any pronounced success in Western Canada. As for the necessity of another elevator here, the STAR is inclined to believe that it would prove a boon to those who have grain to dispose of, hence it is further argued that the establishment of another elevator would further the interests of the farmers. Competition makes business, and goes a long way towards better satisfaction among all concerned. There is one elevator here at present, and it is recognized that by another competitive company buying grain after harvest the farmers would stand a better chance of getting the highest prices, unless a combine was formed, which is not likely when the co-operative element enters into it. Those who had grain to dispose of would then have the choice of selling to the highest bidder.

This year has proved that the Wainwright district is capable of producing more grain than many have imagined, and next year will likely see more land under crop. But even in view of this, and the necessity of a better market for the farmers, the STAR, with the little information it has already been given, does not endorse or oppose the idea of a farmers' elevator.

XMAS is near at hand and even though the festive day is but a week distant, the face of Nature does not indicate that the season is approaching Yuletide. Practically no snow has yet fallen, and the thermometer has hovered a few degrees above or below the freezing point for weeks. It appears as though we are to experience an open Christmas.

The point many western contemporaries are endeavouring to raise at this time is the fact that never before in the history of western Canada has such weather been experienced. But in spite of the correct reports the press is giving of the weather that prevails, eastern newspapers, and especially those in the New England states, are printing reports of how the west is suffering from the continued cold. Western reports are denied by otherwise reliable newspapers for no other reason than to discourage emigration, which has taken place during the past few years and what these newspapers expect will follow next spring. In order to discourage this emigration from the east, they will stop at nothing to knock the west.

Sometime ago, a newspaper, printed in England, called "John Bull," was loud in disclaiming the reports of prosperity and success in Canada. From every part of the Dominion and the eastern states of the union the author of such false statements was severely dealt with through every editorial column. In face of this, these same eastern papers are now following the tactics of John Bull and it seems an easy matter for them to print the articles they do. But in this case, as it was proved when Champ Clark advised the western American farmer to stay at home, every knock will undoubtedly prove a boost when the real truth is known.

THOSE who look upon the Grain Grower's Guide and its teachings, relative to the trusts and combines, the railways and the banks, with as steadfast faith as true scripture will find food for considerable thought in the following, which is clipped from the Canadian Courier.

"On November 12th, in the city of Winnipeg, 450 shareholders of the Grain-Growers' Grain Company assembled for their annual meeting. These are the people who are said to maintain the Grain-Growers' Guide, the paper which is most severe on the Eastern manufacturer. This grain company has a capital of \$645,000 and during the year just ended earned more than 25 per cent. No one criticized these enormous profits. No farmers shareholder called the company a "robber" or "blood-sucker". Everyone was pleased. A ten per cent dividend was paid, and the rest of the cash carried forward.

"Isn't that the answer? If the Grain-Growers' Grain Company complacently accept twenty-five per cent. dividend, are not all other people in business entitled to do the same? Does not this justify the bankers and manufacturers in accepting a similar return on their investment?"

Such a condition of affairs as this should cause all opponents of monied interests who pin their faith to the Grain-Growers' Guide to consider whether or not that publication is sincere in the criticism it often delights in printing.

FINANCIAL institutions are sending out advice to their agents and representatives in western Canada stating that the financial stringency shows little change over what it has been for the past year, and that loans of all kinds must be diminished or cut off entirely. A further claim is made by those back of the banks and loan companies that the situation does not look as if it will change before the prospects of the 1914 crop are known, and there is a likelihood of money being even tighter than the west has yet known it. Needless to say this is not very encouraging news to receive at a time when it was thought that the critical point of money shortage had been passed.

It is imperative that in order to keep as much money in the country and community as possible, it is the duty and to the best interests of all concerned to make their purchases at home.

DESIRE OF WEST FOR INDUSTRIES

And the Opportunities All Over the Country Have Been and Still Are Inviting.

One of the outstanding features of the wonderful development of the western half of the Dominion has been the great industrial progress which has gone on quietly. And there is everything to indicate that in the long run manufacturing will revolutionize conditions and result in a complete transformation of the entire west.

While grain growing will continue to be the greatest wealth producing factor of the west, it has long been apparent that the "one crop" policy is not the system which produces real and lasting prosperity. As the Canadian Miller and Cerealist says, mixed farming has been a splendid success, as the fine live stock now seen throughout the west indicates, and this success has led to the establishing of creameries and kindred industries. These have in turn made it apparent that practically any line of goods needed in the west can be manufactured there as successfully as elsewhere.

The industrial development of the last three or four years has been simply phenomenal. Not very long ago, the sole topics of conversation in the west were "real estate," "wheat," "today," "cheap money," is the subject under discussion everywhere. Everybody has become imbued with the feeling that the real and substantial growth of the centres of population depends mostly on industrial development. There is not now a point in the west which is content to longer remain a simple trading post. Everywhere, the demand is for factories, for all are convinced, that with the building of permanent towns prosperity will come to the surrounding agricultural districts.

Winnipeg secured cheap power about a year ago, and last year seventy new factories were established there. Medicine Hat has cheap power, and industrial concerns are rapidly multiplying in that city. The story is the same everywhere—industrial development is one of the headlines in the program of western progress. In the little city of Souris, Manitoba, there is a big factory where fine office fixtures and store fittings are made as can be turned out by any concern in America. At Redcliff, Alta., the most artistic ornamental iron work is being turned out in immense quantities, and factories are being established there to manufacture winter places and bottles. At other places, fire engines and farm machinery, and even automobiles are being made successfully, and great factories are working night and day turning out material of all kinds for building purposes.

With the great success made by these enterprises what must be the opportunities in the milling and grain business where the raw material is at the very door of the industry? The opportunities are simply phenomenal. There is room for the investment of millions in mills and elevators with the absolute assurance of splendid profits in legitimate business.

EFFECT OF TARIFF

Illustrated by a Saskatchewan Circular—Means More Industries

"The tariff creates conditions under which the Western American manufacturer can see an advantage in either moving over the line or establishing branch plants on this side." This statement is taken from a letter circulated by the Industrial League, Limited, of Saskatchewan. It continues: "Some interesting figures regarding industrial development in Saskatchewan during the past couple of years are to be gleaned from the Government reports, and they have a significant bearing on the whole situation. In 1906 there were eighty establishments employing 1,444 hands; in 1910 the number had increased to one hundred and seventy-three, employing 8,260 hands; and at the close of 1912 there were three hundred and fifteen establishments, employing 4,040 hands. In that period fifteen lumber and planing mills have increased to twenty-eight, twelve brick yards to seventeen, six flour mills to thirty-nine, and two pork-packing plants to four."

Saskatoon claims 40 manufacturing plants and 32 warehouses. With the tariff has done for Saskatchewan it is also doing for Winnipeg, Regina, Medicine Hat, Calgary, and Edmonton and other cities and towns. Which of these cities would advocate the reduction of duties against United States goods and thus maintain factory cities south of the boundary instead of north?

They prefer to leave untouched the tariff which "creates conditions under which Western American manufacturers can see an advantage in either moving over the line or establishing branch plants on this side."

STRAYED—Red and white small cow strayed in August. Had red spring calf by side. Branded YM, half diamond above, on right ribs. Reward of \$5 offered for information leading to recovery of these animals.

PROVED BEST BY TEST

We have had several baking and chemical tests made of CREAM OF THE WEST and GILT EDGE flour together with three of the so called leading brands of flour and in each test CREAM OF THE WEST is in the lead and GILT EDGE is equal to the best and in the lead of the other two grades

WAINWRIGHT MILLING CO.

For tea you can't beat LIPTON'S TEA

Sole Agents for Wainwright—The G. H. Beaudry Company

This Beautiful Hair

Is like what you want your hair to be—

Lustrous, bright and glossy; soft, silky and wavy.

To have beautiful hair like this, use

HARMONY HAIR BEAUTIFIER

It's just what its name implies—just to make the hair glossy, and lustrous, and more beautiful—just to make it easier to dress, and more natural to fall easily and gracefully into the wavy lines and folds of the coiffure, just to give that delightful fresh and cool effect, and leave a lingering, delicate, elusive perfume.

Will not change or darken the color of the hair. Contains no oil; therefore, cannot leave the hair sticky or stringy. Very pleasant to use, very easy to apply—simply sprinkle a little on your hair each time before brushing it. To thoroughly clean your hair and scalp, use

Harmony Shampoo

A liquid shampoo to keep the hair clean, soft, smooth and beautiful. It gives an instantaneous rich, foaming lather, penetrating to every part of the hair and scalp. It is washed off just as quickly, the entire operation taking only a few moments.

It leaves no lumps or stickiness. —Just a refreshing sense of cool, sweet cleanliness. —Just a dainty, pleasant and clean fragrance. Both in odd-shaped ornamental bottles, with sprinkler tops. Harmony Hair Beautifier, \$1.00; Harmony Shampoo, 50c. Both guaranteed to please you, or your money back.

Sold only by the more than 7000 Rexall Stores—The World's Greatest Drug Stores—and made in our own big Toronto Laboratories, where all the delightful HARMONY, VIOLET DULCE and BOUTIQUE JEANETTE Perfumes and Toilet Preparations are made.

Sold in this community only at

I am The Greatest POWER IN the business world

I CAME into being as the spoken language came: slowly, gradually, and to meet the urgent need. I have been worked for evil, but mostly I have worked for good. I can still be worked for evil, but each day it grows more difficult to do so.

I am at once a tool, and a living force. If you use me wisely, I am a tool in your employ. If you misuse me, my double edge will injure or destroy you. If you do not use me, I am a force that works ever against your accomplishment of the aims and purposes that animate your business.

DEAL WITH MY AGENT . . . "THE STAR"

HAIR DOESN'T DIE IT HAS TO BE KILLED

Have often continued to live and grow long after the death of the body. But it is often killed through neglect or misuse. Almost always the woman or man whose hair is falling out, or is stringy, lifeless and dull looking, is entirely to blame because of not giving it the proper care. It is easy to take care of the hair—easy to make it more beautiful. Use Harmony Hair Beautifier, makes hair glossy, soft and silky, and Harmony Shampoo to keep hair and scalp thoroughly clean.

Harmony Hair Beautifier, delightfully perfumed with true rose, is very easy to apply—simply sprinkle a little on your hair each time before brushing it. It contains no oil, and will not change the color of the hair, nor darken gray hair.

To keep your hair and scalp dandruff-free and clean, use Harmony Shampoo. This pure liquid shampoo is most convenient to use, giving an instantaneous rich, foaming lather that immediately penetrates to every part of the hair and scalp, insuring a quick and thorough cleaning. It is washed off just as quickly, the entire operation taking only a few moments. Contains nothing that can harm the hair, and leaves no harshness or stickiness—just a sweet cleanliness.

Both preparations come in odd-shaped, very ornamental bottles, with sprinker tops. Harmony Hair Beautifier, \$1.00; Harmony Shampoo, 50c. Both guaranteed to satisfy you in every way, or your money back. Sold in this community only at our store—The Retail Store—one of the more than 7,000 leading drug stores of the United States, Canada and Great Britain, which own the big Harmony Laboratories, Toronto, where the celebrated Harmony Perfumes and Toilet Preparations are made.

GRAND TRUNK PACIFIC CHRISTMAS AND NEW YEAR'S HOLIDAYS 1913-14 FARE AND ONE-THIRD

For round trip between all stations on the Grand Trunk Pacific Railway, in Alberta, British Columbia, Manitoba, Ontario (Ft. William and West.) and Saskatchewan.

Good going Saturday, December 20th, 1913 to Thursday, January 1st, 1914, Returning until Monday, January 5th, 1914.

Apply to Grand Trunk Pacific Agents or Train Agents, for fares, etc.

W. J. QUINLAN
District Passenger Agent,
Winnipeg, Alta.

Synopsis of Canadian Northwest Land Regulations.

THE sale of land of a family, or any male over 18 years old, may homestead a quarter section of available Dominion land in Manitoba, Saskatchewan or Alberta. The applicant must appear in person at the Dominion Lands Agency or Sub-Agency for the District. Entry by proxy may be made at the office of any Local Agent of Dominion Lands, but, subject to certain conditions. Duplicates of the homestead application and the homestead certificate, in each of three years, a homesteader may file within nine miles of the homestead on a farm of at least 80 acres, on certain conditions. A homestead is retained in every case, except when residence is performed in the vicinity.

In certain districts a homesteader in good standing may pre-empt a quarter section along side his homestead. Price \$3 per acre. Duplicates—Six months residence in each of six years from date of homestead entry, including the time required to earn homestead point, and 30 acres extra cultivation. The area of cultivation is subject to reduction in case of rough scrubby or stony land after report by Dominion Inspector for patent.

A homesteader who has exhausted his homestead right and cannot obtain a pre-emption may take a purchased homestead in certain districts. Price \$10 per acre. Duplicates—Six months residence in each of three years, cultivate 20 acres and erect a house worth \$200.

W. W. CORY

Deputy of the Minister of the Interior
N. B.—Unauthorized publication of this advertisement will be paid for.

A Des Moines man had an attack of muscular rheumatism in his shoulder. A friend advised him to go to hot springs. That meant an expense of \$150, or more. He sought for a quicker and cheaper way to cure it and found it in Chamberlain's Liniment. Three days after the first application of his liniment he was well. For sale by all dealers.

FUTURE ASSURED

Many Industrial Advertisements in One Western City Are Good Indication

The Edmonton Bulletin now prints a "made-in-Edmonton" page of advertisements. Amongst the twenty-three industrial enterprises which use this medium of publicity are three metal works companies, a foundry and machine company, an auto top company, two furniture companies, a glass works, a concrete company, a sawage concern, a manufacturing jeweler, a chemical company, a shoe manufacturer, an electro-plating plant, a lumber firm, a dairy company, a rubber plant company, a leather company, a tannery, a box company and two motor boat companies.

On this page appears an article by the Edmonton Industrial Commissioner calling attention to the fact that Western Canada is rapidly becoming one of the greatest markets in the world for manufactured goods. The country is filling up rapidly with prosperous people who demand the best wares and are willing to pay for them. Eastern Canadian, American and British manufacturers are establishing branch factories on the ground, and amongst the raw materials ready to their hand in the Edmonton district are: salt, limestone, silicate shales, clay for brick and pottery purposes, gypsum, sandstone, glass sand, gold, coal, petroleum, and timber on navigable waters convenient to the city.

The commissioner declares that the Western Canadian industrial field backed by a rapid agricultural growth warrants belief in the speedy development of Edmonton into a great city, and in the rise of many other industrial communities of much importance. This is the true spirit of the great West where the prosperity of farm and city must ever go hand in hand under the Canadian National Policy of reasonable tariff protection and where faith in the future will easily survive any temporary money strain superinduced by world-wide monetary conditions.

APPEAL TO FARMERS

Toronto Globe Points Out Great Opening for Them in Canadian Market

Under the heading "A Challenge to the Farmers," the Toronto Globe says editorially:

"New Zealand now supplies butter to the Canadian market. According to a despatch from the Canadian Trade Commissioner in New Zealand, 71,962 boxes of butter were shipped to Vancouver from Auckland during the fiscal year 1912-13. Cold-storage companies from several points in Canada, it is said, are endeavoring to get in touch with New Zealand shippers, so that imports of this commodity will go on increasing until Canadian farmers in the West wake up to the possibilities of the home market. With a rapidly-increasing population and constantly-extending industry, it seems extraordinary that, in a land so richly endowed by nature with the means of supplying food to the consumer, Canadians should have to go so far afield as New Zealand for dairy products. Canada should be able to supply all the butter and other produce required were the soil put to its natural use and the principle of mixed farming more generally adopted. Ontario alone is capable of supplying all the wants of Canada in this department were farming conducted on strict business principles, not only in regard to production, but also to marketing. Mixed farming, co-operation, and improved transport facilities would go a long way to hold the Canadian market for the farmer. . . . The mingling of the prairie lands by wheat-growers to the practical exclusion of mixed farming, and the importation of food-stuffs into a country so rich in soil and climate, are unhealthy symptoms which all concerned in the welfare of their country must deplore. The agricultural and manufacturing industries are complementary the one to the other in any well-balanced scheme of national economy, and each has its place to fill in supplying the needs of the people and in contributing to their moral and material welfare."

Cattle, Sheep, Hogs

It is as a feeding rather than a selling crop that alfalfa will have its greatest importance to the Lethbridge district.

The increase in beef cattle this year is notable. One man alone is bringing in 8,000 head of young steers from Mexico. Hogs, too, are to be found in growing number, while there are nearly twenty-five per cent. more sheep than a year ago. Last year, by the way, the district considered tributary to Lethbridge yielded over 600,000 pounds of wool, and this year the total clip is expected to run to half as much again, so well did the sheep winter. At last year's price of 13 1/2c per pound, this would mean well on to \$125,000 from wool alone.

When you have a bilious attack give Chamberlain's Tablets a trial. They are excellent. For sale by all dealers.

WAINWRIGHT MATERNITY HOME & Emergency Hospital
1 Block North of School
A perfect home for ladies during confinement, special attention given to patients from the country. Terms reasonable. Contagious cases not accepted.
Mrs. G. M. Mitchell

We wish to call your attention to the fact that most infectious diseases such as whooping cough, diphtheria and scarlet fever are contracted when the child has a cold. Chamberlain's Cough Remedy will quickly cure a cold and greatly lessen the danger of contracting these diseases. This remedy is famous for its cures of colds. It contains no opium or other narcotic and may be given to a child with implicit confidence sold by all dealers.

George Harper, local G. T. P. agent, accompanied by J. R. Peacock, left here yesterday for their former homes in Ontario, where they will visit for a few weeks.

BEST CHRISTMAS GIFTS

The very best Christmas gift you can make yourself, your wife and all the members of your family is a year's subscription to that great paper The Family Herald and Weekly Star of Montreal. It costs only one dollar and it's visit each week will make your household happier than ever before. No home in Canada should be without that great paper during 1914—Every issue is worth the money.

You will find that druggists everywhere speak well of Chamberlain's Cough Remedy. They know from long experience in the sale of it that it cures of colds and coughs it can always be depended upon, and that it is pleasant and safe to take. For sale by all dealers.

G. L. Hudson, M.P.P., was a business visitor to Edmonton yesterday.

William Moffatt was among those to leave here yesterday for points east. Before returning, he will visit his former home in Merrickville, Ont., a few miles east of Smith's Falls.

CURLING SEASON STARTED

The curling season has started and several enjoyable matches have been witnessed during the past week. W. E. Washburn and A. D. Ferguson, who are skipping teams this winter, have been winners so far, the latter winning over Herb Crampton's rink by 17-6.

"EMILION WEDDING PARTY

W. R. Hayward, of Vermilion, who is well-known here, accompanied by his bride, who was formerly Miss M. Middleton, came down from Vermilion yesterday and took the train en route for Vancouver, where they will spend a two month's honeymoon trip.

HEARD ON MAIN ST.

T. S. McAfee left here on Monday for Markdale, Ont. where he will visit friends near his former home.

Wallace McDougall, a well known farmer of Greenhills, left here last week on an extended visit to Lindsay, Ont.

W. G. Pigeon, who has been a resident of the town for the past year, left yesterday for Ontario, where he will remain.

H. A. Cook, of the Imperial Lumber Co., is in Bashaw this week, on business connected with the yard at that point.

Mr. and Mrs. Schwab thank the kind friends who were so sympathetic and thoughtful during their recent sickness and bereavement.

Contractor P. D. Laird was a business visitor to Mirror last week in connection with settling up for the school contract there.

Orion Limpert, who is located at South Battleford, where he is in the painting business, is here visiting his wife and family for a few weeks.

Poles are being erected at the corner of Third Avenue and Main St. for another gasoline light. Another will be placed on Third at the corner of Queen in the near future.

Miss Lottie Campbell, of High River, who visited her sister, Mrs. J. E. Minter, was suddenly called to Calgary on Saturday on account of her brother's illness.

F. C. Liddle, who suffered a paralytic stroke recently, is doing as well as could be expected. His friends will be pleased to hear that he is out of all danger.

The annual meeting of the school board when the report of the year's progress along educational will be heard, will be held to-night at the school commencing at 8 o'clock.

\$25.00 reward offered for the arrest and conviction of the party or parties who shot my yellow dog Bingo this morning.

THE CHURCH AND SOCIAL QUESTIONS

Statement Adopted by General Assembly of Presbyterian Church.

Continued from last week

The following recommendations were also adopted:—

(1) "That the General Assembly hereby urge the ministers of the Church to recognize and fulfil the obligation resting upon them as ministers of Jesus Christ with respect to the social application of His Gospel; and to this end it urges them.

(a) To inform themselves carefully regarding the conditions of human life in their own neighborhoods, particularly as these are affected by the conditions of industry.

(b) To acquaint their congregations with these facts.

(c) To instruct their congregations in the teaching of the Gospel regarding social Service. (d) To co-operate in every effort for the attainment of the ends for which the Church has declared itself.

(2) "That the General Assembly hereby request all who have charge of schools and colleges to make ample provision for instruction regarding the Christian ideal of society; and, further, that it direct the governing bodies and faculties of theological colleges to provide that the students in their care be taught the social principles of the Gospel, and trained in methods of applying these principles to the needs of the localities in which they shall be called to minister.

(3) "That the General Assembly hereby urge all the members of our Churches to give serious study to social problems, and to avail themselves of their opportunities for social service; to bring the sense of justice and righteousness which is fundamental in Christianity to bear upon matters of every-day life, in business, in society, or wherever their influence may extend, and to create a Christian public sentiment demanding the removal of wrong wherever found.

OFFERS \$25 REWARD

T. G. Cook's yellow dog, Bingo, was shot this morning by someone living in the north part of town. This dog has had an adventurous career. He has been thrice shot, poisoned once, run over by a dray twice, scalded once and two years ago was run over by auto. Although Bingo is not yet dead, his owner offers a reward of \$25 to the party who can give information leading to the apprehension of the latest guilty party.

HOW TO AVOID COLD WEATHER DISEASES

To prevent cold weather diseases, put your body into a proper healthy condition by successful dieting. Colds, grippe, bronchitis, pneumonia, catarrh, typhoid fever, rheumatism and other ailments may be escaped in most cases, if this is done. Build up your health and strength—your nerves and blood and entire body—into such shape that you can count on good health all during the winter months—by taking Reckall Olive Oil Emulsion, the ideal blood, nerve and body builder.

This is a remarkable medicine, but a common-sense one. It doesn't stimulate so-called "tonics" that stimulate give you no permanent relief, but leave you worse off than before. Reckall Olive Oil Emulsion contains none of these harmful stimulating ingredients, such as alcohol and dangerous and habit-forming drugs. Its great benefit to you is through its real nerve and blood and body-building effects. It nourishes, builds, strengthens. Its merit does not rest on making you feel better for a few minutes at a time after taking it, but on making you feel better all the time.

Reckall Olive Oil Emulsion is the ideal blood and nerve-food tonic. You who are weak and run-down, and who are apparently well now, but are liable to suffer from various cold weather ailments, use Reckall Olive Oil Emulsion and keep you well and strong. For the tired-out, run-down, nervous, emaciated or debilitated—those who are "run-down" and "run-down" people—it is a sensible aid to renewed strength, better spirits, glowing health.

Every Subscriber a Shareholder. All Stock Must be Paid for Before Big Dividends Can be Expected

EVERY single subscriber to the STAR is an interested shareholder to the extent of the price of his subscription, or what might better be termed the amount of his paid-up capital. The STAR belongs then to the thousands and odd subscribers who are interested in it.

Subscribers cannot expect the best service if they fail to pay up their subscriptions, just as shareholders in a company can not and do not expect dividends until their capital is paid up. If you are among the delinquent subscribers, it is only business policy on your part to pay for the stock you have subscribed.

Renew your subscription now and help us in our effort to send Wainwright's fair name to the uttermost parts of the earth. And the stock of the Wainwright STAR is not by any means over-subscribed, so if you are not a subscriber you should join others who enjoy dividends in the way of benefits they derive.
